## Introduction

---

H8 Control is a remote control app designed specifically for the ZOOM H8 Handy Recorder (“the recorder” hereafter).

Recording, playback and other recorder operations can be conducted using this app on an iOS/iPadOS device.

Note that this manual does not explain operation of the recorder itself. See the H8 Operation Manual for detailed information about all its functions.

---

## Installing H8 Control

---

- 1. Open the App Store on the iOS/iPadOS device and search for “H8 Control”.**
- 2. Tap “GET” on the H8 Control screen.**  
This will install H8 Control on the device.

# Connecting with the recorder

## NOTE

- A dedicated wireless adapter (BTA-1, sold separately) must be installed to remotely control the recorder from an iOS/iPadOS device. See the recorder operation manual for details.

1. Remove the REMOTE connector cover on the recorder, and connect a dedicated wireless adapter (BTA-1).

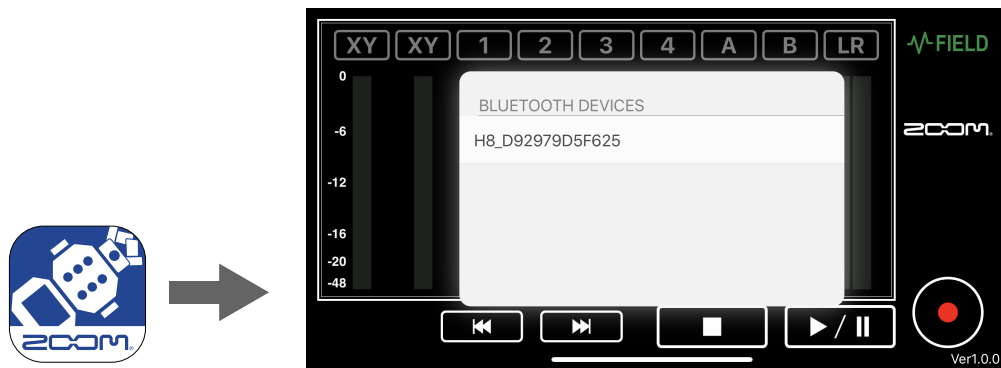

2. Tap  on the recorder.

3. Tap  on the recorder.

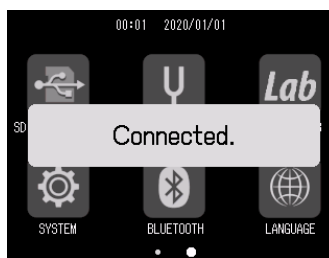

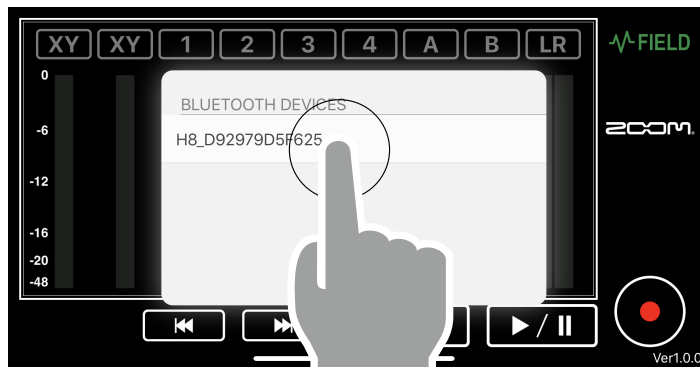

#### 4. Launch H8 Control on the iOS/iPadOS device.

This opens a Bluetooth device list in H8 Control.

#### 5. Tap the device name/ID on the iOS/iPadOS device.

This starts connection. When connection completes, “Connected” will appear on the recorder display.

#### NOTE

- If connection is not successful, move the device closer to the recorder or move both to a place where nothing interferes with radio waves and start H8 Control again. Confirm also that the Bluetooth function of the iOS/iPadOS device can be used.

# Screen appearance
