Version 6.00

- Released as following bug fix and function update in June 2019

■ Function Update

1. Added a function to receive timecode over Bluetooth LE from UltraSync BLUE by Timecode Systems and write timecode information to a recording file.
Installation of the software extension file is required to use Bluetooth LE function.

■ Bug Fix

1. The time reference of recorded files is slightly shifted when the frame rate for timecode is set to 29.97D.
