Updating the firmware

The **L-20** firmware can be updated to the latest versions.

1. Copy the file for updating the firmware to the root directory on an SD card.

NOTE

An update file for the latest version can be downloaded from the ZOOM website (www.zoom.co.jp).

2. Insert the SD card into the **L-20**.

3. While pressing and holding , set  OFF to ON.

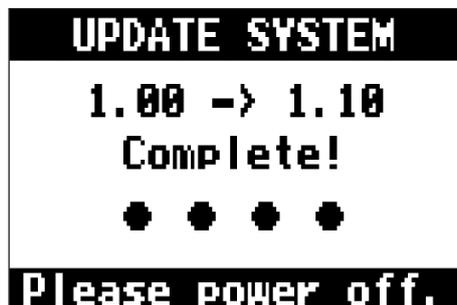

4. press .

NOTE

Do not turn the power off or remove the SD card during a firmware update. Doing so could cause the **L-20** to become unstartable.

5. After the firmware update completes, turn the  OFF off.

NOTE

In the unlikely event that the firmware update should fail, follow the procedures from the beginning again to update the firmware.
